Instructions for download and installation

Registration

The registration for the use of the CLTdesigners can be done via the website of the CLTdesigner (www.cltdesigner.at) under [Customer zone / Registration](#).

After successful registration and login on the website, the [Download](#) of the CLTdesigner can be started.

Download and first start of the program

After login, the program can be started by pressing the [Download link](#) with the Java Web Start Launcher.

Restarting the program

It is unnecessary to restart the program via the website. In the control panel in Windows the option "Java" exists.

By clicking on it, the Java Control Panel is shown. Afterwards, let you show the "Temporary internet files" within the Java Control Panel.

By selecting the CLTdesigner in the Java Cache Viewer and by clicking on the green start button an online search for updates on the CLTdesigner is started. If an updated version is available, it is downloaded and the program is restarted.

 By clicking on this button an icon is created on your desktop and in the item „All Programs“ within the start menu.
